For items (1-7), read the following texts carefully, and then choose the correct answer from A, B, C or D to complete the sentence below each.

1) Research suggests that although faking emotions can help in the short term, continually suppressing emotions can have a negative effect on our general health. If the face is not involved in expressing an emotion, that emotion may eventually find another outlet, such as depression, a pessimistic outlook, or even physical illness.

The writer's main purpose in the text above is

- A) to warn that not being genuine may have a negative impact on us.
- B) to advise on ways to maintain a calm outer appearance.
- C) to name the resources which can improve our outlook.
- D) to connect what we feel with the face we show to the world.

2) Poets make pets of pretty, docile words:
I love smooth words, like gold-enamelled fish
Which circle slowly with a silken swish,
And tender ones, like downy-feathered birds:
Words shy and dappled, deep-eyed deer in herds,

The underlined words 'dappled, deep-eyed deer' in the lines above are an example of

- A) Sibillance
- B) Alliteration
- C) Onomatopoeia
- D) Simile

3) Choosing to be a bit of a loner isn't the same thing at all as being lonely. We need connections with others, even if we also like our own space. Research in the UK found that loneliness and prolonged solitude can exacerbate the risk of developing serious health issues. Being with others can also improve our immune system. The world needs all different kinds of people.

According to the passage, loneliness can

- A) improve the immune system.
- B) be a healthy personal choice.
- C) increase the risk of health problems.
- D) help people who like their own space.

- 4) As a fan of natural illusions, I've spent a good amount of time reading about them and visiting the ones that I've been able to get to, so I know a fair amount about the subject. However, I did feel that they could have used better examples sometimes than the ones included in the documentary.

In the text above the commenter

- A) has made a point of seeing natural illusions for themselves.
- B) gave a reason for the documentary's popularity.
- C) felt they learned nothing at all from the documentary.
- D) thinks that the people speaking in the documentary were reliable.

- 5) Preschoolers often envisage their future careers as copies of their parents, such as a teacher or a truck driver, for example, or perhaps as the princess or prince they see in their storybooks. However, as they grow older, the scope for dreaming extends too. A nine-year-old may well covet the idea of being a famous actor while another may set their mind on being a proud owner of numerous aeroplanes one day.

The word in the text above that has the same meaning as 'imagine' is

- A) envisage
- B) scope for
- C) set on
- D) covet

- 6) Humour never gets turned off. What makes this even more difficult is that so much British humour is dry and ironic jokes are made with a straight face, without gestures, and delivered in a serious tone of voice. So sometimes it even takes the British a while to twig that the other person has just said something funny. For those not used to it, it can be a nightmare knowing whether to laugh or not.

The British themselves might not understand some humour because

- A) it never gets turned off.
- B) they know when to laugh or not.
- C) it is dry and delivered in a serious tone of voice.
- D) it can be a nightmare to some British people.

- 7) Uncle Pumblechook was not invited in. Leaving him at the gate, I followed the girl through an unkempt courtyard. The house looked deserted and some of the windows were bricked up. Everything was dark in the entrance hall with no sign of life or feeling, and we went upstairs by the flickering of candle light. The girl left me at a door, telling me to enter.

In the text above from *Great Expectations*, the courtyard is described as

- A) messy and untidy
- B) bricked up
- C) with no sign of life
- D) flickering candle light
